

COINage Kids

Mail your quiz answers to October Quiz, COINage magazine, P.O. Box 6925, Ventura, CA 93006-9899. One winner will be drawn from the valid entries received by October 31, 2013. Valid entries must include the correct answers, the entrant's name, age (17 or younger) and address, and the signature of a parent or guardian. Please *only one entry per child per household*. The winner will receive a one-ounce American Silver Eagle coin.

by Marcy Gibbel

American Eagles

The bald eagle first appeared as an American symbol on the Massachusetts copper cents and half cents coined in 1787 and 1788. Since then, it has appeared on the reverse side of many U.S. coins, including the silver dollar, half dollar and quarter. It has also appeared on the U.S. gold coins that were christened the eagle, half eagle, quarter eagle and double eagle.

Today, the bald eagle has a place on the American Eagle bullion coins. The bird even has its own commemorative coin.

Can you match the name of the coin to the correct eagle design element pictured here?

American Silver Eagle _____

1787 Massachusetts half cent _____

Walking Liberty half dollar _____

Flying Eagle cent _____

Liberty Seated quarter, Variety 2 _____

Morgan dollar _____
